AC Adapter Kit for Ligature Resistant Sensor Faucet

#SF371

Technical Diagram and Installation Instructions

1 If you wish to change your faucet from battery power to AC power, remove battery power module cover and batteries. Replace with AC Adapter and secure with Phillips head screw. Secure included Grounding Lug between existing screw and Metal Bracket of Solenoid. Connect Grounding Wire to Grounding Lug. Connect AC Power Module to AC Transformer

Transformer: 120VAC to 12VDC
AC/DC Adapter: 12VDC to 6VDC
